PLANT RECOVERY

Winter Storm Uri –
February, 2021

Drought Damage –
Summer, 2022

- FREEZE DAMAGE

- DROUGHT DAMAGE

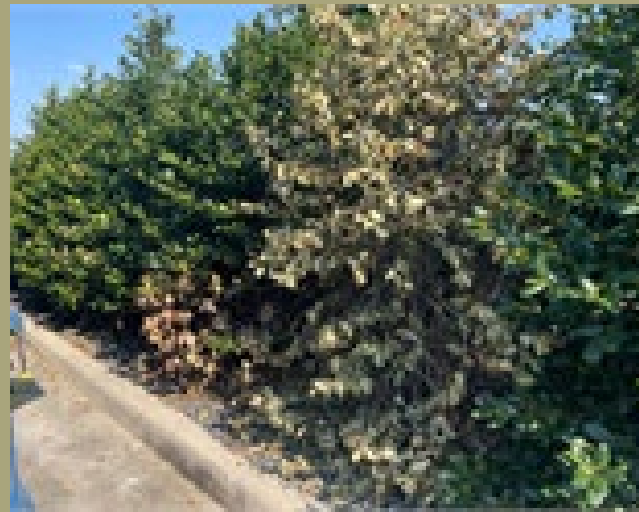

PLANT RECOVERY

WATERING

- FOLLOW WATER RESTRICTIONS FOR YOUR CITY
- DRIP IRRIGATION AND BUBBLERS ON TREES ARE OFTEN NOT RESTRICTED
- NEWLY PLANTED LANDSCAPE – WATER FOR SURVIVAL AS PER CITY GUIDELINES
- IF RESTRICTIONS WORSEN, WATER FOUNDATION, TREES AND SHRUBS BEFORE TURF
- HAND WATERING IS EFFECTIVE WAY TO AID IN PLANT SURVIVAL
- DO NOT FERTILIZE PLANTS UNTIL TEMPERATURES MODERATE AND/OR RAINS RETURN

Dead wood can be trimmed out of trees and shrubs at any time!

- Aphids (500+)

INSECTS:

- Scale, Borers (+40 Systemic)

DISEASES:

- Canker

DISEASES:

- Leaf Spot, Powdery Mildew, Rust

PLANT RECOVERY

CONTROLLING INSECTS AND DISEASES ON TREES AND SHRUBS

NEEM OIL – THE GOLD STANDARD FOR CONTROL OF INSECTS, MITES AND SOME DISEASES!

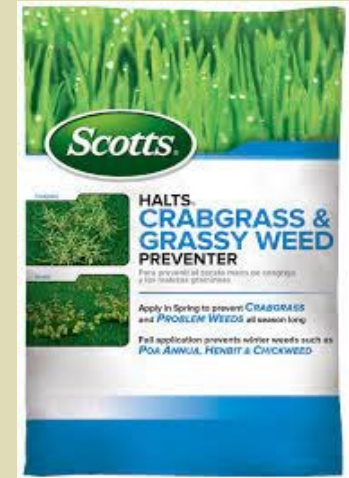

- Organic
- Safe for all plant materials
- Safe for the environment
- Spray all plant materials in the winter for control of overwintering insects, mites and diseases

PLANT RECOVERY

Pre and Post Emergent Weed Control and Fertilizer for Turf and Beds

- Depending on condition of your turf, eliminate weed competition. Apply a post-emergent weed control such as Scott's Weed X for Southern Grasses. Treat with Halts pre-emerge for Turf and Preen pre-emerge for beds to control germinating weeds.
- Do fertilize to encourage recovery and vigor with a slow-release fertilizer.

- Mulch beds and tree rings to improve appearance, conserve moisture and provide protection from line trimmer damage, mower damage and winter freeze.
- Prune trees for shape and corrective pruning.
- Fertilize trees to encourage vigor.
- Prepare seasonal color beds for fall and winter planting.
- Select fall/winter color.
- Add decorations to landscape for fall interest.
- Fall is the best time to plant or replace trees!

OTHER TIPS FOR YOUR LANDSCAPE

GREAT TREE FOR
SMALL AREA:
AUTUMN GOLD
GINKGO TREE
(A FOSSIL TREE)

GREAT INDOOR
PLANT: ZZ PLANT
(requires very little water
and thrives in low light
areas)
